## Videojet® 1000 Line

Small Character Ink Jet Printers

### Count on uptime. Count on Videojet.

Videojet delivers uptime assurance through a full range of best-in-class marking and coding technologies — backed by the industry's largest, most responsive service network.

Greater productivity. Less maintenance. Lower cost of ownership. Find out how the new 1000 Line ink jet printers can help you raise uptime to a whole new level. To learn more, visit [www.videojet.com/1000line](http://www.videojet.com/1000line).

Introducing smart marking and coding.  
*Productivity made simple.*

## Advancing productivity with advanced technology.

It's time to raise your expectations about what a printer can do. The new 1000 Line of continuous ink jet printers is engineered to keep your production line up and running longer. So advanced, they automate setup and cleaning. So well-designed, they make maintenance easier than ever. All of which adds up to more continuous productivity — and greater lifetime value than any other unit.

### Keeping you connected.

With the plug and play USB, hot swapping jobs and backing up messages is simple. The 1000 Line also offers Ethernet capability for remote diagnostics and off-line control via our Connector® software package.

### Simplicity at a glance.

A highly intuitive interface helps streamline daily tasks. It displays all the information you need to know about printer operation. And the WYSIWYG interface design means you'll always see what you're printing.

- Real-time fluid levels shown on screen
- Convenient i-button makes troubleshooting quick and easy

### Goes wherever you need it.

The 1000 Line is designed for maximum mobility. It's compact and lightweight, with built-in handles for easy transport. Also, it does not require plant air, making it even more portable.

- Weighs less than 40 pounds (18 kg)
- Flexible umbilical for easy integration

### No mess, no waste, no mistakes.

The Smart Cartridge™ fluid delivery system eliminates spilled fluids, while ensuring that all the fluid in each cartridge is used. The smart design even makes sure you're using compatible fluids.

- Self-contained cartridge prevents spills during replacement and drain completely to eliminate wasted fluids
- Low solvent consumption reduces operating costs
- Ensures compatible fluids are used every time

### How uptime becomes automatic.

Innovative features — such as a printhead that calibrates and cleans itself — provide long runs with no intervention.

- Automatic printhead setup, calibration and adjustment ensures consistent performance
- Auto-cleaning design allows for longer print runs
- Plug and play printhead module makes servicing quick and easy

### Easy, predictable maintenance.

The advanced core design enables 1000 Line printers to go longer between planned maintenance — while making maintenance simpler and more predictable.

- Up to 18 months of operation before requiring preventive maintenance
- Alerts operator when new core is needed
- Eliminates messy filter replacement
- Takes only 30 minutes to change out core

### A clear advantage in print quality.

The 1000 Line produces the sharpest codes in the industry.

- Delivers excellent drop placement accuracy for best-in-class print quality
- Dynamic Calibration™ maintains consistent code quality in any environment
- Full range of fluids designed for optimum performance on all substrates
